# Tutorial android app visual studio

Visual studio 2017 android app tutorial. Visual studio code android app tutorial. Visual studio 2019 android app tutorial. Visual studio native android app tutorial. Visual studio 2015 android app tutorial. Visual studio android app tutorial pdf. Visual studio android app development tutorial. Visual studio c++ android app tutorial.

You can do this by editing the menu\_main.xml file in the "Resources -> menu" folder, and adding this item as a child of the menu tag: With this code you have created a new option with a title to be defined in the string resource file. As mentioned earlier on Android is the best practice to put all the text that the user faces into the string resource file.
